Profile

Computer Science undergraduate with hands-on experience building full-stack applications using React, Next.js, TypeScript, Python, and FastAPI. Experienced in developing deployed web applications, AI tools, and developer utilities through team-based projects and hackathons.

Skills

- **Languages:** Python, TypeScript, JavaScript, SQL, C#, Bash.
- **Frontend:** React, Next.js, Tailwind CSS, HTML5, CSS3, Vite.
- **Backend:** FastAPI, Node.js, Express.js, REST APIs, Authentication.
- **Databases:** MongoDB, SQLite.
- **DevOps and Tools:** Docker, Git, GitHub Actions, CI/CD, Vercel, Linux, Git Workflow.
- **AI and Security:** Ollama, OpenCV, Nmap, OSINT.
- **Testing:** Vitest, Unit Testing.
- **Teamwork:** Event planning, team coordination, project tracking, leadership.
- **Spoken languages:** English, Hindi, Malayalam.

Education

B.Tech in Computer Science, College of Engineering Chengannur. Expected 2028. CGPA: 8.6/10.

Projects

- **TortoiseLang (slowLang) | 2025:** Led a 2-person team building a satirical Python IDE with intentional typing delays and a Tkinter desktop UI.
- Implemented typing-speed enforcement with a 2-second lockout, live WPM readout, and custom run behavior.
- **Event Tracker | 2025:** Developed and deployed a full-stack event management application for FOCES volunteers using FastAPI, React, Tailwind CSS, and SQLite, adding search, offline support, and automated Vitest tests.
- **Kindred | 2026:** Built a volunteer management platform supporting 6 program tracks using React, Express, and MongoDB.
- Implemented JWT authentication with bcrypt hashing, a 10-points-per-entry journal, and a searchable community directory.
- **Aegis | 2026:** Built with a 3-person team at the Build with AI Hackathon. Streaming log feed with Framer Motion threat states.
- Offline analysis via Ollama Qwen2.5:3b with iptables mitigation output and a CISO post-mortem. Next.js, React, TypeScript.
- **Brevity Prompt | 2026:** Built a Chrome MV3 extension that trims prompts across ChatGPT, Claude, and Gemini using browser APIs and custom regex filters, with a popup UI, before/after preview modal, and per-prompt savings stats. JavaScript.
- **ShyUI | 2026:** Built a Windows system-tray utility in C# using the Win32 API with a 50 ms foreground watcher, per-app hotkeys and rules, and a run-at-startup toggle.

Experience

- **Project Coordinator, FOCES CEC, Chengannur, Apr 2026 – Present.** Coordinated technical projects and workshops for the FOCES executive team.
- Mentored participants at Coding Arena 4.0, a 7-day Java bootcamp.
- Conducted an Agentic AI workshop with a live zero-dependency dashboard build.
- **Student Ambassador, CampusCrew, Dec 2025 – Present.** Support campus outreach and student programs.

Achievements

- Global Nominee, NASA Space Apps Challenge 2025, Bloom Watch track, team of 4, Trivandrum.
- Winner, Bugsmash 2025 code debugging competition, IEEE Computer Society SB CEC, debugged C programs.
- TinkerHub Scholar, a 6-month program, TinkerHub Carnival invitee.
- Top 22 at TinkerHub Useless Projects 2.0.
